# ABDUL HADI ADNAN

Associate Software Engineer | AWS & Azure Specialist | AI/ML & GenAI Engineer

Lahore, Pakistan • 0332-3322337 • abdulhadiadnan1080@gmail.com • github.com/abdulhadiadnan1080

## PROFESSIONAL SUMMARY

Associate Software Engineer specializing in AWS & Azure cloud architecture, Generative AI, and enterprise AI systems. Design and secure multi-layer infrastructures (up to Layer 7), build production MLOps pipelines, and enforce multi-jurisdiction AI compliance. Hands-on experience evaluating frontier models (Anthropic, Meta, OpenAI, Grok, Ollama), computer vision solutions, and banking-grade AWS automation and governance.

## PROFESSIONAL EXPERIENCE

**Associate Software Engineer (ASE) — Devsinc | Present**

- Design AWS infrastructures with security controls spanning up to Layer 7; architect networking (VPC, Transit Gateway, security groups, NACLs, hybrid connectivity) for banking and regulated workloads.
- Lead GenAI initiatives: model training, fine-tuning, and evaluation of models from Anthropic, Meta, OpenAI, Grok, Ollama, and other providers for client-critical applications (details confidential).
- Developed a daily-running AWS Custodian pipeline for a banking client, automating compliance enforcement, resource governance, and cost optimization at scale.
- Built full sandbox environments using diverse AWS instance types; managed infrastructure teardown and cleanup with AWS Nuke while maintaining safe operational practices.
- Deliver computer vision solutions and production AI systems across Healthcare, Fintech, and Legal domains with integrated MLOps and DevOps practices.
- Apply expertise in multi-jurisdiction AI compliance (EU AI Act, Colorado AI Act, California AI Act, HIPAA, PIPEDA, ISO standards). Utilize Azure alongside AWS for multi-cloud deployments.

**Trainee ASE → AI/ML Intern — Devsinc | Dec 2025 – Transition to Full-Time**

- Specialized in AWS architecture and networking for banking sector requirements; engineered AI pipelines compliant with HIPAA, PIPEDA, and ISO standards.
- Addressed complex healthcare edge cases; led QC/QA for enterprise-ready LLM models, improving accuracy, reducing bias, and enhancing production stability.
- Built end-to-end pipelines for model training, validation, and production deployment with integrated DevOps and MLOps practices.

## EDUCATION

**Bachelor of Science in Computer Science (BSCS) — Forman Christian College University | Expected Fall 2026**
Coursework: Machine Learning & Deep Learning • Participated in multiple international academic programs abroad

**Exchange Student – Data Science — Lingnan University, Hong Kong**
Courses: Design and Algorithm • VR/AR Software Development • Unreal Engine 5

**Intermediate of Computer Science (ICS) — Roots International / MIUC, Lahore | 03/2020 – 02/2022**
Web Development & E-Commerce Certificate — Defence Welfare Society Technical Vocational Training Centre | 06/2020 – 01/2021

## TECHNICAL SKILLS

| | |
|---|---|
| **Cloud & Infra:** | AWS (Architecture, Networking, L7 Security, VPC, Transit Gateway, IAM, Custodian Pipelines, Nuke), Azure, Multi-cloud Design, Infrastructure as Code |
| **AI / ML / GenAI:** | Model Training & Evaluation, LLMs (Anthropic, OpenAI, Meta, Grok, Ollama), Computer Vision, NLP, MLOps, Bias Mitigation, Production Deployment |
| **Compliance:** | EU AI Act, Colorado AI Act, California AI Act, HIPAA, PIPEDA, ISO Standards, Enterprise Security Controls |
| **Languages & Stack:** | Python, React, Flask, CSS, Unreal Engine 5, VR/AR \| Domains: Healthcare AI, Fintech, Legal AI, Banking Infrastructure |

## PROJECTS

**AI-Based Infographic Learning Companion (Final Year Project)** — AI-powered companion for digital learning via automated infographic generation. Integrates NLP and data visualization; React frontend with Python backend.

**Portfolio Web Application** — Responsive personal portfolio using React, CSS, and Flask backend with project showcase, blog integration, and contact automation via APIs.

## SOFT SKILLS & LEADERSHIP

Strong client communication & presentation • Team collaboration across timezones • Architectural decision-making with international clients • Quick learner with initiative and self-motivation • Leadership roles: Executive Event Coordinator (Forman Music Society 2025), Head Graphics (Forman Dramatics Club 2024), Graphics Supervisor & Logistics Manager (Forman Journalism Society)
